

CLEANING & DEGREASING WIPES

Industrial Cleaning Wipes for Professional Use

Palpro Cleaning & Degreasing Wipes are purpose-built for tough industrial cleaning tasks. These wipes are specially formulated to remove grease, oil, uncured sealants, wet paint, adhesives, and general grime, making them an essential tool for maintenance, workshop, and production environments. Made from either strong, low-lint Tritex® material or heavy-duty scrub material and pre-saturated with an effective degreasing solution, these wipes deliver reliable, high-performance cleaning without the need for sprays, cloths, or water. Ideal for use on tools, machinery, and surfaces, they provide a quick and convenient solution that supports high operational standards.

At a glance

- Cuts through grease and grime
- Removes oils, wet paints, uncured adhesives
- 150 Wipes made with strong low-lint Tritex®

- 100% recyclable packaging
- Compact, easy to store
- Made in Britain

Chemical formulation:

Palpro Cleaning & Degreasing Wipes are pre-saturated with a powerful cleaning and degreasing formulation, designed to tackle the demands of industrial environments. This effective solution lifts and removes grease, oil, and general grime with ease, supporting fast, efficient cleaning across tools, machinery, and surfaces. No additional sprays or water are required, just reliable performance in every wipe.
