Surface Disinfectant Wipes

7 products in this range

Trusted food area disinfection.

- Alcohol, QUAT and PHMB Free
- Helps you maintain your environment with confidence
- Designed specifically for food manufacturing and processing

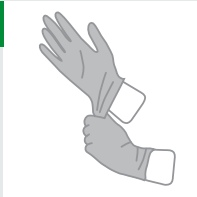

Surface Disinfectant Wipes

Key Highlights

- For use disinfecting food areas
- Alcohol, Quat & PHMB Free
- HALAL certified
- Blue, visually detectable wipe material
- 89% plastic reduction for refill bag vs bucket with lid
- 2l canister - 27% plastic reduction compared with previous version
- Tritex material, canister, buckets, lids, and labels are fully recyclable
- Cardboard used in outer packaging is FSC approved

How to use

1

Risk assessment

Please follow your agreed risk assessment policy guidelines regarding the use of PPE.

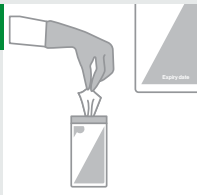

4

S-shaped motion

Wipe in an S-shaped motion from clean to dirty, applying even pressure with the wipe flat. Do not rewipe the same area. Discard the wipe if it becomes soiled or dry, and take a new one from the pack.

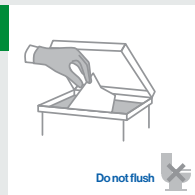

2

Wipe selection

Ensure the wipes are still within the expiry date before use. Close the pack after selecting your wipes to prevent contamination.

5

Discard waste

Discard used wipes in the designated waste bin, following your local guidelines.

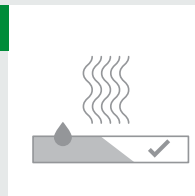

3

Compatibility

Ensure you use the correct wipe for the surface or equipment, following protocols and compatibility guidelines.

6

Air dry

Make sure the surface stays wet for the required contact time as per the packaging instructions. Ensure the surface is fully dry before use.

Technical details

Chemical Formulation

Paltx Surface Disinfectant Wipes contain a specially formulated solution containing Triamine (N, N-bis (3-aminopropyl) dodecylamine).

These wipes have powerful activity, low efficiency loss under protein load and low-foam formula.

Our formulation has been successfully taint tested

Substrate*

Pal's proprietary Tritex® material is made by bonding layers of spunbond and meltblown polypropylene fibres together in a high heat process.

The addition of a hydrophilic coating means optimum and consistent liquid discharge.

Tritex® is 100% synthetic.

*Excludes W64230T & Q64230T

Substrate key features

High Strength

Excellent solution retention

Very low linting

Efficient solution release

Efficacy details

Standard	Organism Group	Organism(s)	Contact Time	Conditions
EN 1276	Bactericidal	<i>Pseudomonas aeruginosa</i> <i>Staphylococcus aureus</i> <i>Enterococcus hirae</i> <i>Escherichia coli</i>	1 minute	Dirty
EN 1276	Bactericidal	<i>Pseudomonas aeruginosa</i> <i>Staphylococcus aureus</i> <i>Enterococcus hirae</i> <i>Escherichia coli</i>	1 minute	Clean
EN 1276	Bactericidal	<i>Salmonella typhimurium</i> <i>Escherichia coli</i> <i>Listeria monocytogenes</i>	1 minute	Clean
EN 1276	Bactericidal	<i>Lactobacillus brevis</i> <i>Serratia marcescens</i> <i>Shigella sonnei</i>	1 minute	Clean
