

MAX WIPE

Heavy-Duty Dry Wipes for Industrial Cleaning

Palpro MaxWipes are dry wipes engineered for the toughest industrial environments - where reliability, speed, and durability matter most. Designed for manufacturing plants, workshops and maintenance teams, these wipes deliver superior cleaning performance without compromise.

Built for heavy-duty use, MaxWipes quickly absorb oils, solvents, and spillages while tackling stubborn dirt, grease, and grime. Their advanced material ensures low linting for residue-free results, making them ideal for precision cleaning on sensitive surfaces as well as robust tasks on machinery and tools.

The hydroentangled cellulose fibre structure provides exceptional strength and tear resistance, even when used with cleaning fluids or solvents. With a dry format for maximum flexibility, MaxWipes help streamline cleaning processes, reduce downtime, and maintain high operational standards.

Why choose Palpro MaxWipes?

- Industrial-grade strength for demanding cleaning tasks
- Fast absorption for oils, solvents, and spillages
- Low-lint material for clean, residue-free results
- Versatile use—effective dry or with cleaning agents
- Ideal for tools, machinery, and production surfaces
- Supports efficiency and compliance in industrial workflows
